

The Board and the Audit & Risk Management Committee will consider whether the Company's risk management system continues to be sound and that the entity is operating with due regard to the risk appetite set by the Board. This includes satisfying itself that the risk management framework deals adequately with financial and non-financial risk and contemporary and emerging risks such as conduct risk, digital disruption, cyber-security, privacy and data breaches, sustainability and climate change.

Not all aspects of risk management can be formalised, and the Company places considerable reliance on the skill, experience and judgment of its people to take risk managed decisions within the framework of this Policy and to communicate openly on all risk related matters.
